Summary

Software and web developer with a background in music performance, production as well as the service industry. Trained and certified through the GA Tech Full Stack Flex program. Proven problem solver and leader in multiple fields passionate about information access, community building and self-driven musical publication. Strengths include patience for tedious work, keeping calm under stress, clear and concise communication with teammates and the ability to direct oneself efficiently in regard to work and time-management.

Technical Skills

Softwares/Platforms: Ableton Live,Inkscape, Gimp, Audacity
Software Languages: Javascript

Projects

Password Generator | https://github.com/reethd/module-3-challenge-password-generator | https://reethd.github.io/module-3-challenge-password-generator/
Developed a password generator that takes user input as the parameters required for the final password and randomly generates a password of specified length. Coded using javascript.

Work Day Planner | https://github.com/reethd/module-5-challenge-calendar | https://reethd.github.io/module-5-challenge-calendar/
Given the html and css styling, wrote the logic to make an interactive work day planner. The user can enter tasks into any of the hour blocks presented and then save that information to local storage. When refreshed, the website will display the previously entered information from local storage. The hour blocks are also color-coded live to indicate whether they are current, past, or upcoming.

Professional Experience

Kindercore Vinyl (March 2021 - Sept 2022)
- Quality Control / Assembly: Physically inspected as well as listened to records to check for defects. Used platforms such as Monday to catalog and reference packaging components in different areas of the warehouse. Maintained and organized a crowded work environment.
- Press Operator / Lead: Operated and maintained vinyl record presses. Troubleshooting and fixing mechanical problems as they arise in a safe but efficient manner in order to maintain productivity. Monitor records as they come off of the press to note and fix any defects or other issues. Trained and managed other operator staff when the Head Operator wasn't around, helped manage production schedule.

The National (Aug 2018-March 2021)
- Prep/Line Cook: Largely self-driven prep work, including setting up and maintaining personal workstation to produce food that meets or exceeds standards of the chef. Maintained quality and consistency of dishes executed during service.

- Menu Development (First quarter 2021): Researched and developed flavor affinities for The National according to seasonal availability, restaurant standards, and restaurant capacity.

Last Resort Grill (Aug 2011-June 2018)
- Prep/Line Cook: Created and executed prep lists with regards to time management, restaurant inventory and projected sales. Lead the line while coordinating with the front of house to efficiently process and deliver orders to customers. Innovated and executed daily specials with regards to seasonality, clientele preferences, and restaurant ability.
- Kitchen Manager (2017-2018): In addition to previous responsibilities, placed food orders from multiple purveyors while performing price checks and maintaining an accurate kitchen inventory. Managed the employment of others including hiring/firing, conducting frequent and informative employee reviews, and scheduling. Managed food and labor cost. Worked with owners on menu development and revisions while writing the corresponding recipes. Maintained employee morale, made sure to be responsive and reasonable with employee wants and needs.

Education
